

Haison Company was found as a private company in 11 May 2000 in Ho Chi Minh City, Vietnam in response to the following market conditions:

- Growing opportunities exist in Industrial Automation, Process Control and Instrumentation Products and Services in the new era of industrialization and modernization in Vietnam.
- The need for use of efficient distribution and financial methods in these emerging markets.

At that time, Haison was one of the first independent Control and Information System Integrator

in Vietnam, providing a wide range of planning, consulting, and implementation services to industrial clients for Instrumentation, Industrial Automation and Process Control Systems.

Our customers are always satisfied with our high quality products and dedicated customer services. We provide our customers with the fast and effective assistance.

We offer the highest quality products and services from our reputable partners like ABB Control System, Alco Valves, Masoneilan Control Valves, Ametek Drexel Brook Level Gauge, Crane Valves, Control Air Inc, Klay Instruments, PAC, SOR, R.Stahl, and others. But above all, we strive to meet our customer's needs.

Over 15 years, we have achieved high growth and become one of the leading companies providing products and services for Vietnam highly developing economy. Through the years we have evolved by natural progression from a system integrator to distributor and now contractor for various businesses.

We would like to take this opportunity to thank all our customers for their patronage and our partners for their support over the years.
